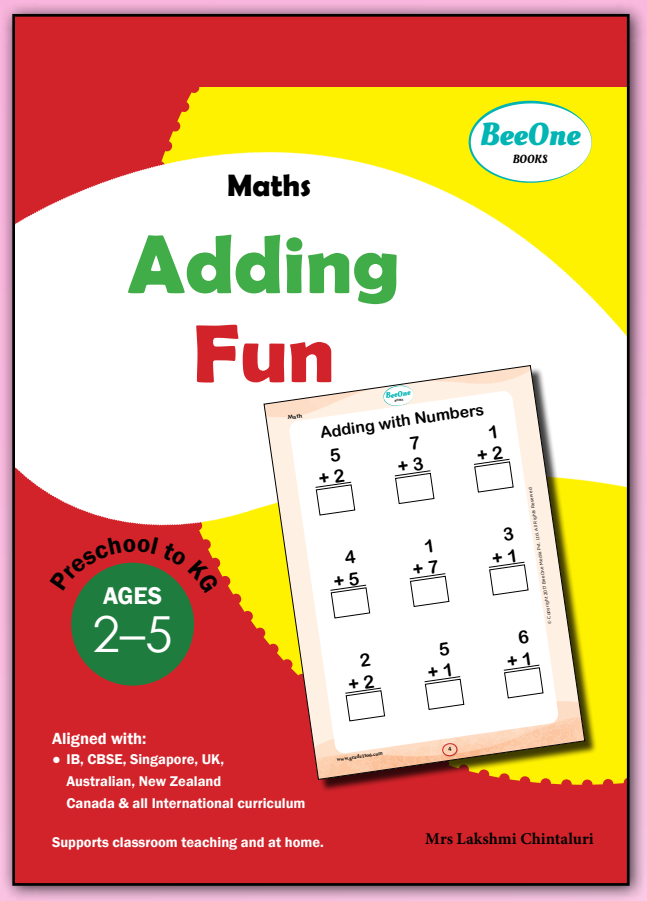
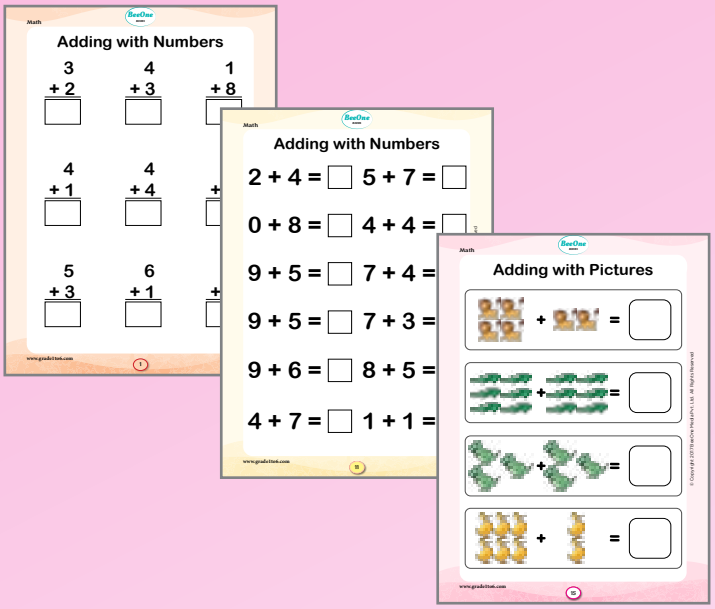
Preschool & Nursery

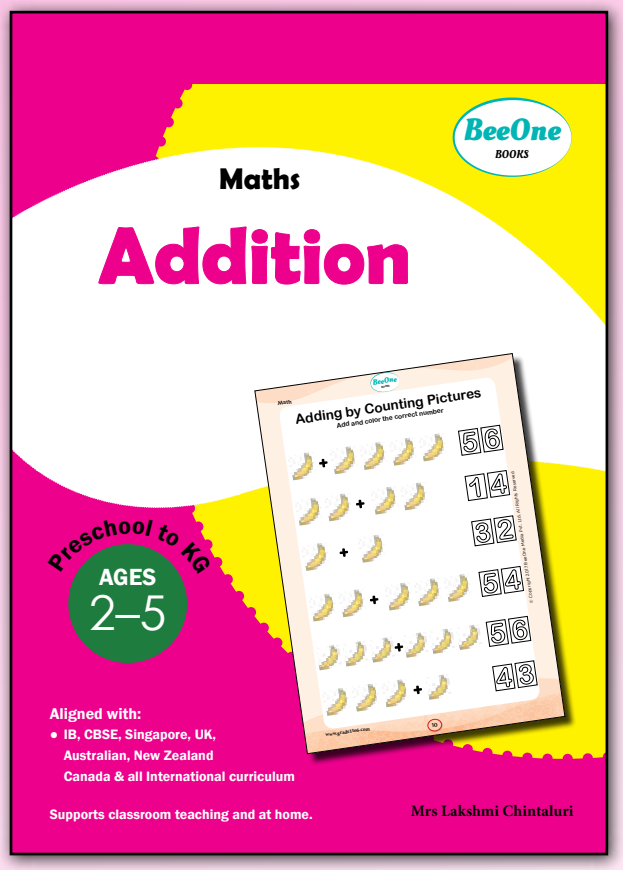
MATHS



Adding fun: This 22-page workbook provides comprehensive practice for students to strengthen their single-digit addition skills through vertical and horizontal problems. The inclusion of picture-based addition enhances visual learning, making math engaging and accessible.

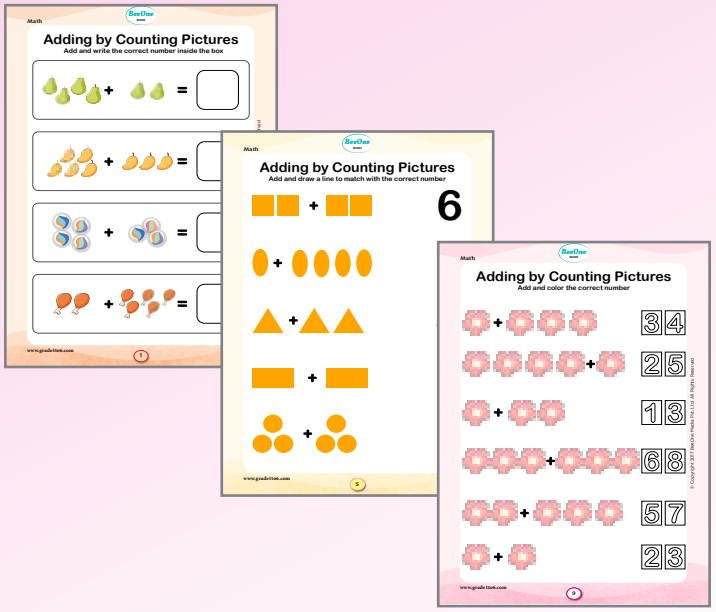
Pages: 22
Price: Rs 300 / $6

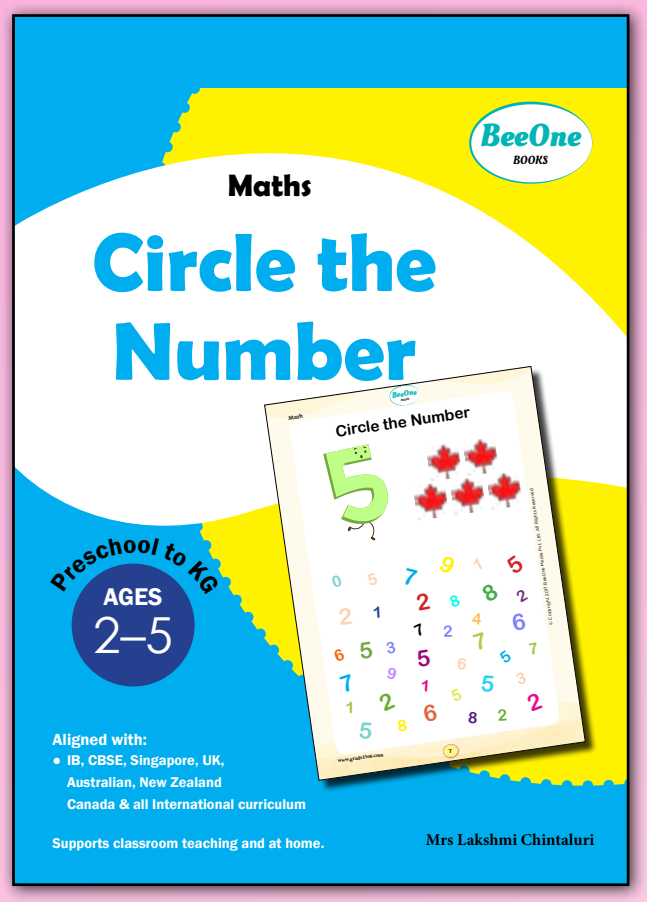




Addition: This workbook engages children with hands-on activities to develop their addition skills using counting and matching techniques. Tasks include adding by counting pictures, matching sums to the correct numbers, and coloring circles to represent answers, making learning interactive and fun.

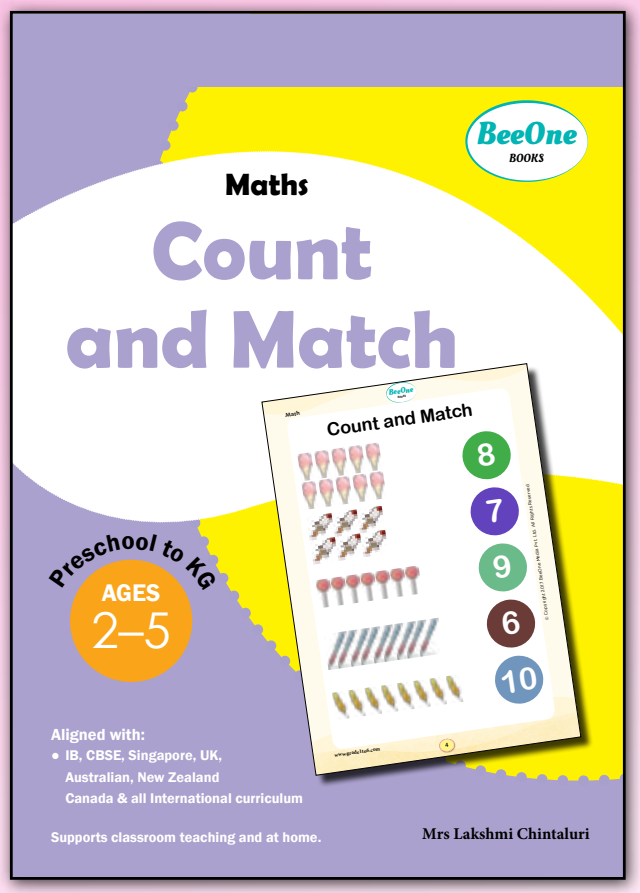
Pages: 24
Price: Rs 300 / $6





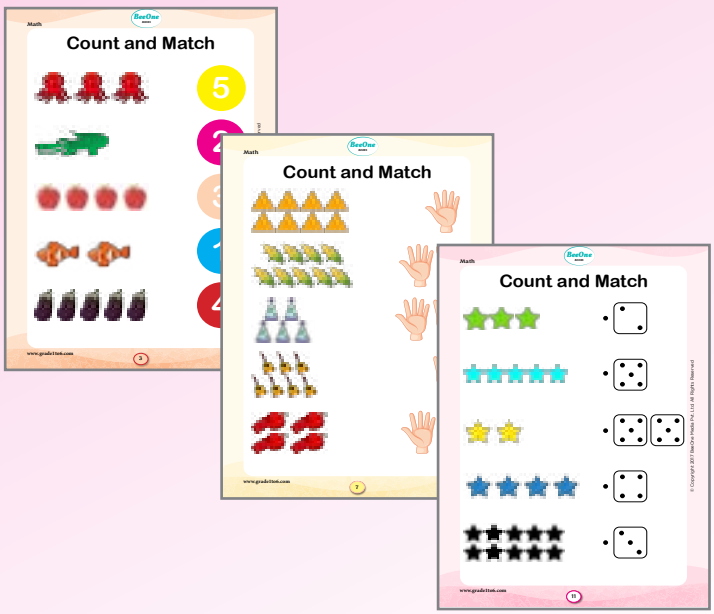
Circle the Number: This engaging workbook helps children recognize and identify numbers from 1 to 10 through fun number mazes. By circling specific numbers in a maze, children strengthen their focus, number recognition, and visual scanning skills. It provides an interactive way to build foundational math skills while keeping learning enjoyable.

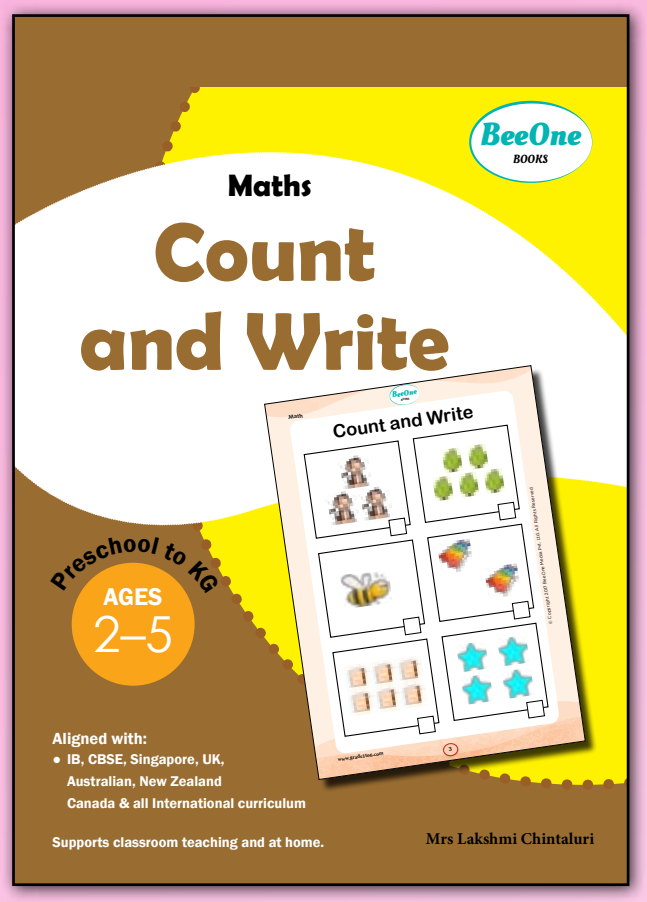
Pages: 13
Price: Rs 300 / $6



Count and Match: This 21-page workbook helps children develop counting skills by matching images with their corresponding numbers. The interactive exercises enhance number recognition, counting accuracy, and logical thinking. It provides a fun and engaging way to build a strong foundation in early math concepts..

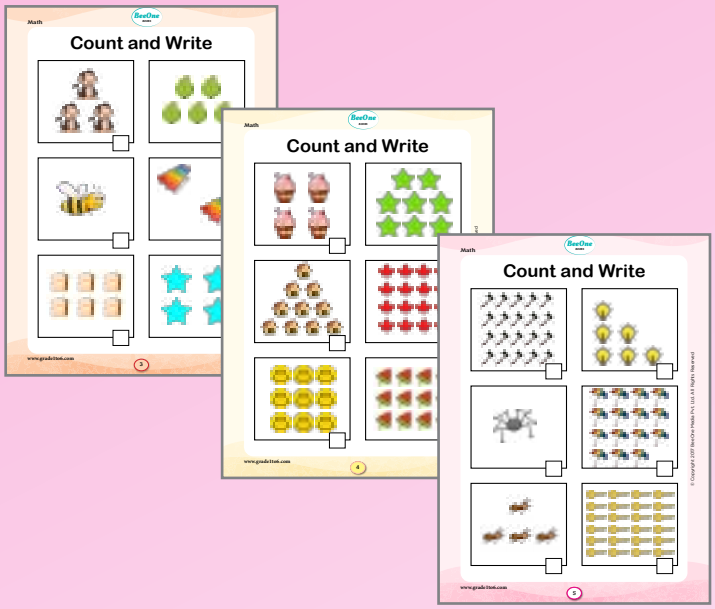
Pages: 23
Price: Rs 300 / $6

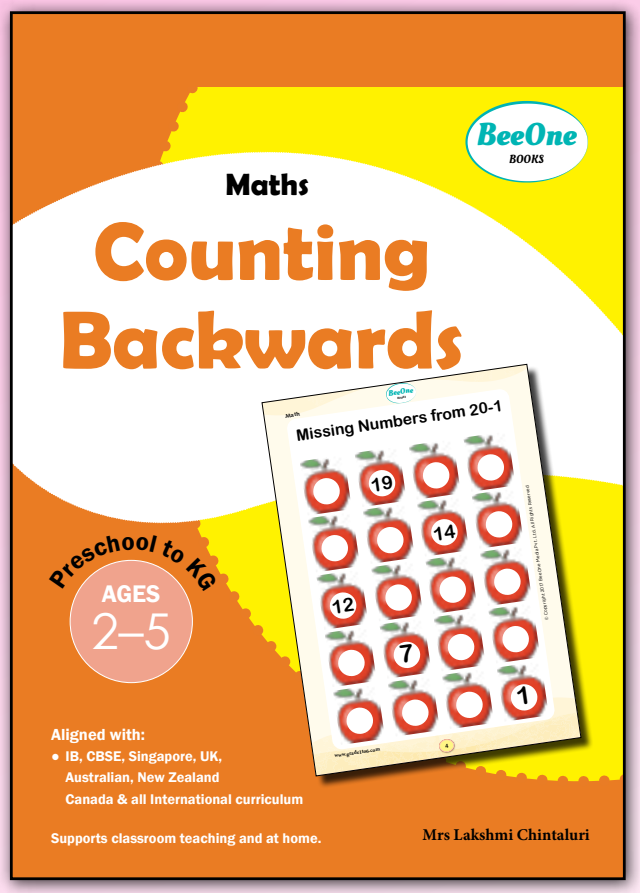




Count and Write: This 20-page workbook encourages children to count images and write the corresponding numbers, reinforcing their counting and number-writing skills. The activities help improve focus, fine motor skills, and numerical understanding. It provides an enjoyable and hands-on approach to mastering early math concepts.

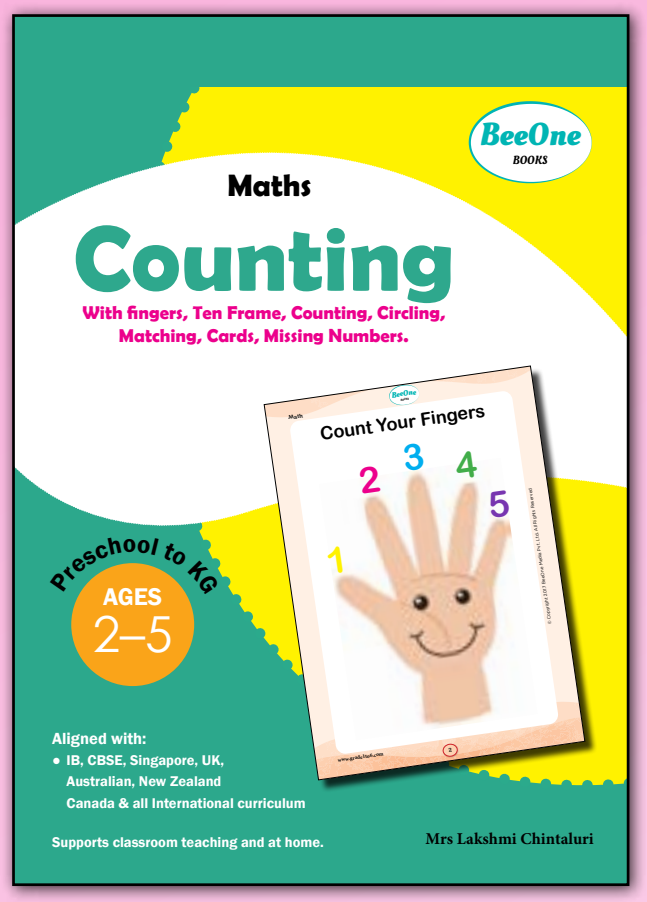
Pages: 22
Price: Rs 300 / $6





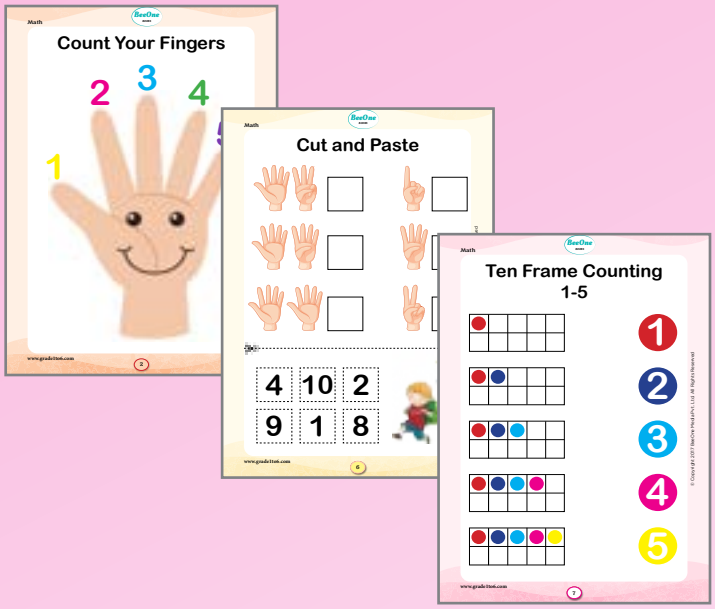
Counting Backwards: This workbook offers a fun and engaging way to teach children about counting backwards and identifying missing numbers from 0 to 20. Through a variety of activities like filling in the blanks, children can practice these essential math skills and develop a strong number sense.

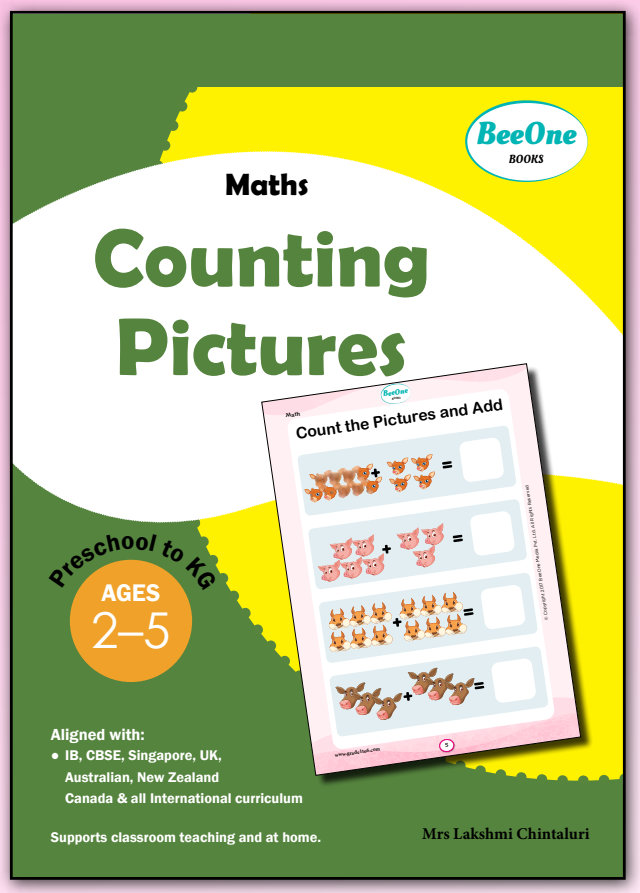
Pages: 20
Price: Rs 300 / $6



Counting: This 26-page workbook makes learning to count exciting with activities like counting with fingers, ten frames, circling, matching, and filling in missing numbers. It combines visual and hands-on methods to strengthen numerical understanding and problem-solving skills.

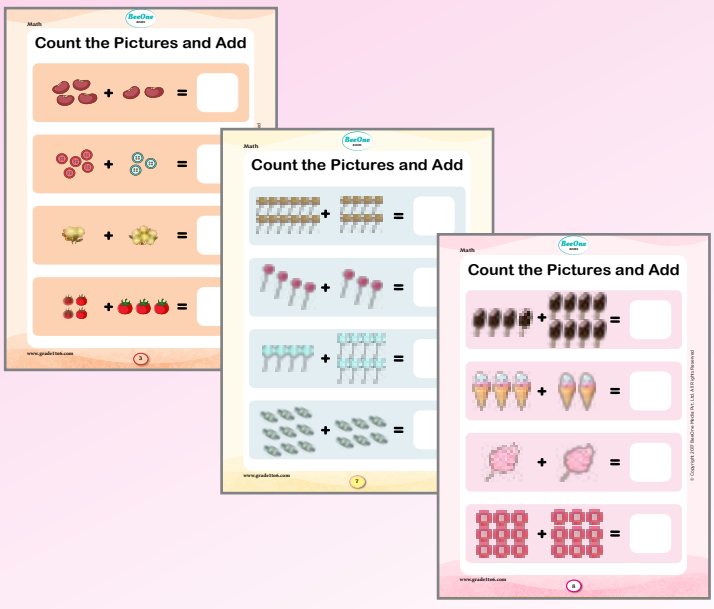
Pages: 29
Price: Rs 300 / $6

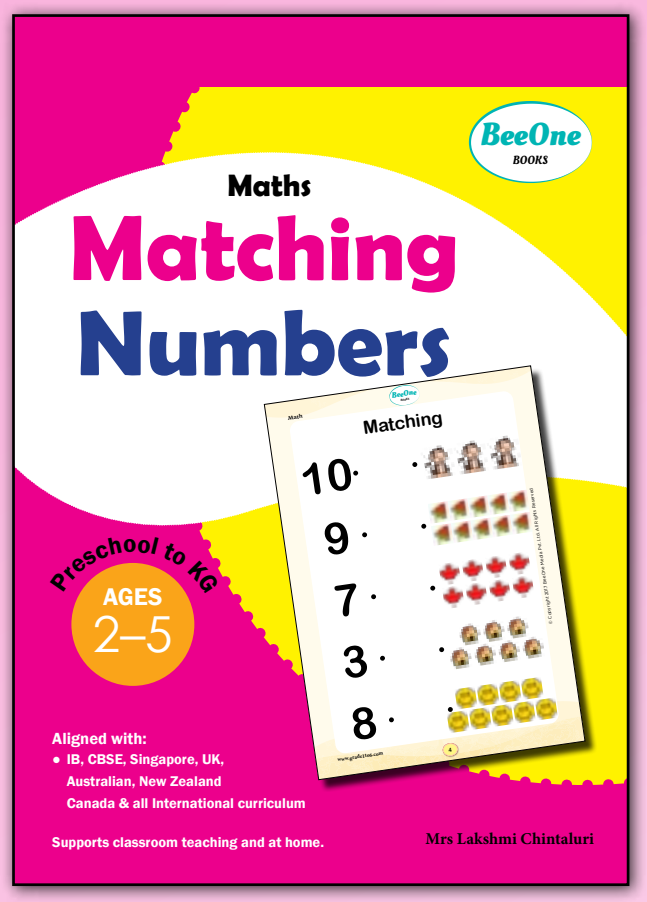




Counting Picture: This 15-page workbook guides children in counting images, adding them, and writing the resulting number, combining counting and basic addition skills. The exercises foster critical thinking, numerical fluency, and fine motor coordination. It offers a fun, interactive approach to developing foundational math concepts.

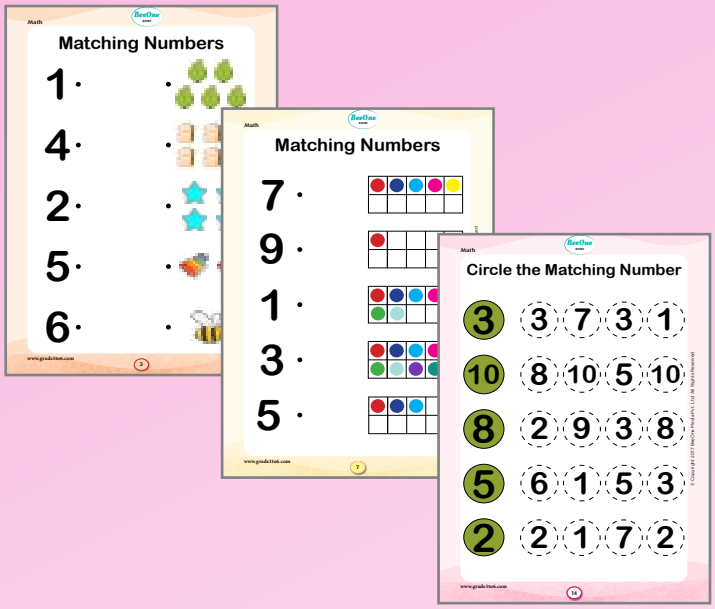
Pages: 17
Price: Rs 300 / $6

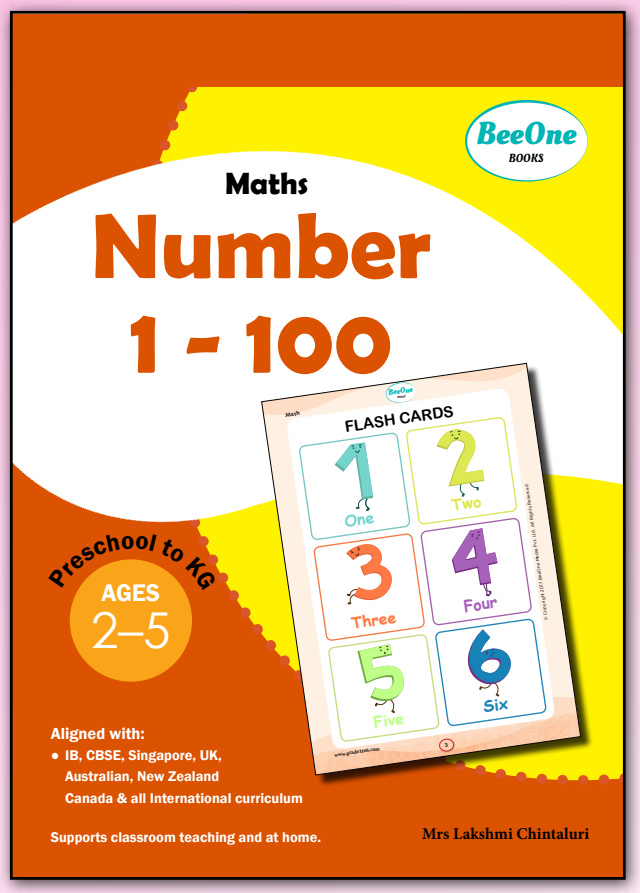




Matching Numbers: This workbook offers a variety of activities, including matching images to numbers, circling the correct numbers, matching numbers to their names, and pairing number cards. These exercises build number recognition, matching skills, and understanding of numerical relationships.

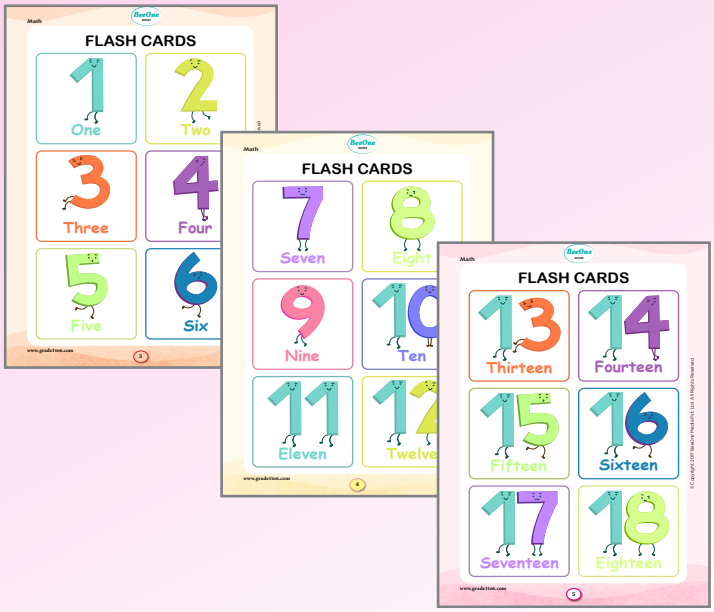
Pages: 22
Price: Rs 300 / $6

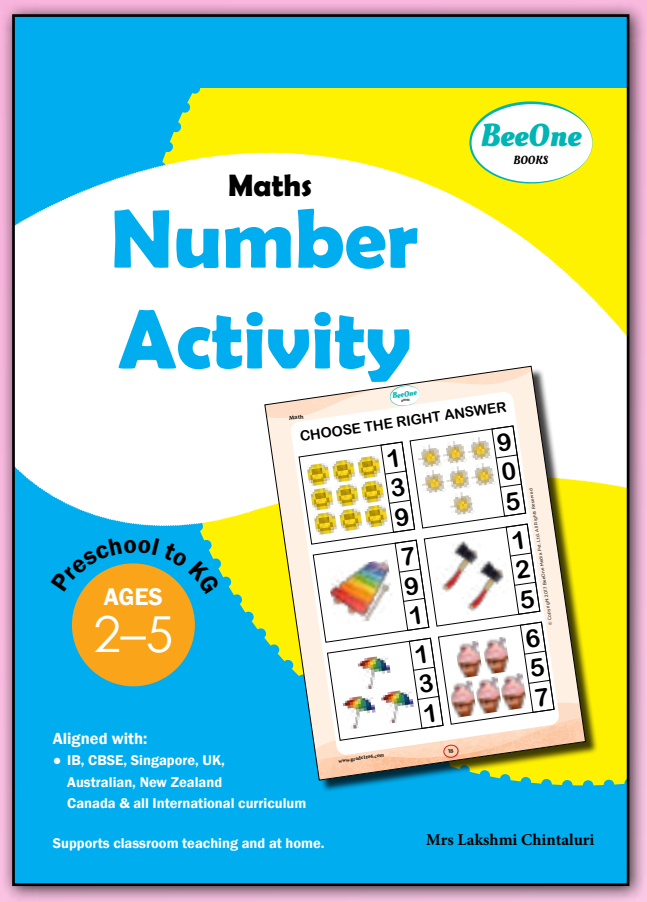




Number 1-100: This preschool number cards workbook provides a hands-on approach to learning numbers 1 to 100. The cards can be used for various activities like sorting, sequencing, and matching, making number recognition a playful and educational experience.

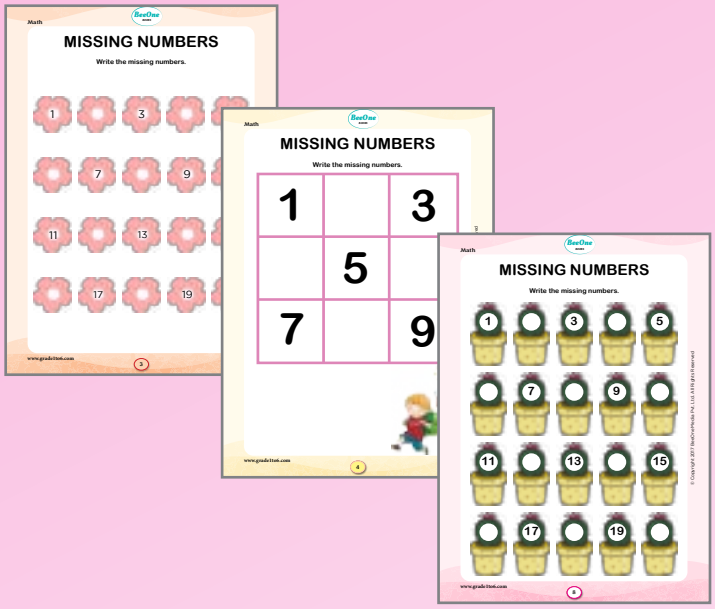
Pages: 21
Price: Rs 300 / $6

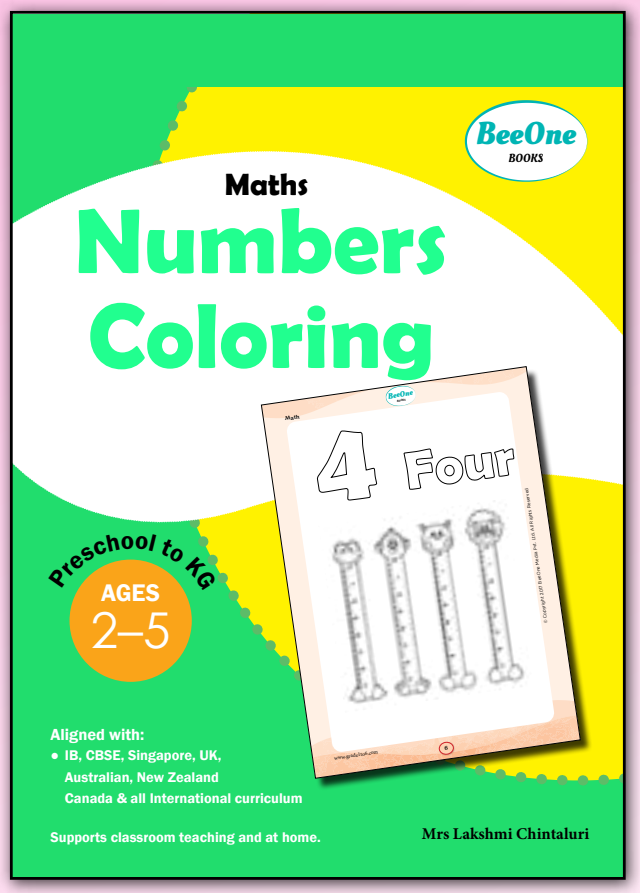




Number Activity: This workbook offers a comprehensive range of activities, including missing numbers, tracing numbers from 1 to 20, writing number names, coloring numbers, and counting images to write corresponding numbers. It builds number recognition, handwriting skills, and basic counting proficiency in a fun and interactive way.

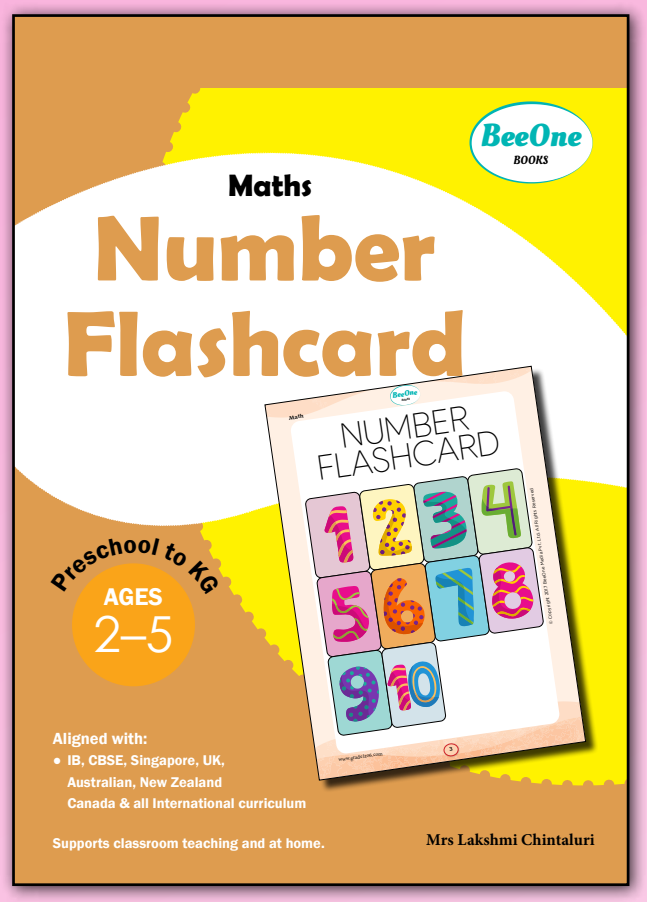
Pages: 29
Price: Rs 300 / $6





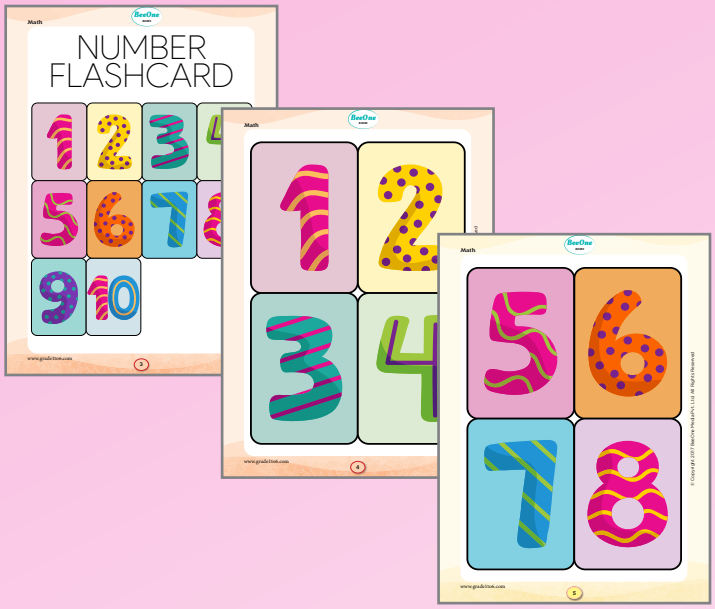
Number Coloring : This number coloring workbook is a delightful way to introduce numbers 1 to 10 to young children. It combines the fun of coloring with the educational benefits of number recognition and fine motor skill development. As children color the numbers, they practice number identification and improve their hand-eye coordination.

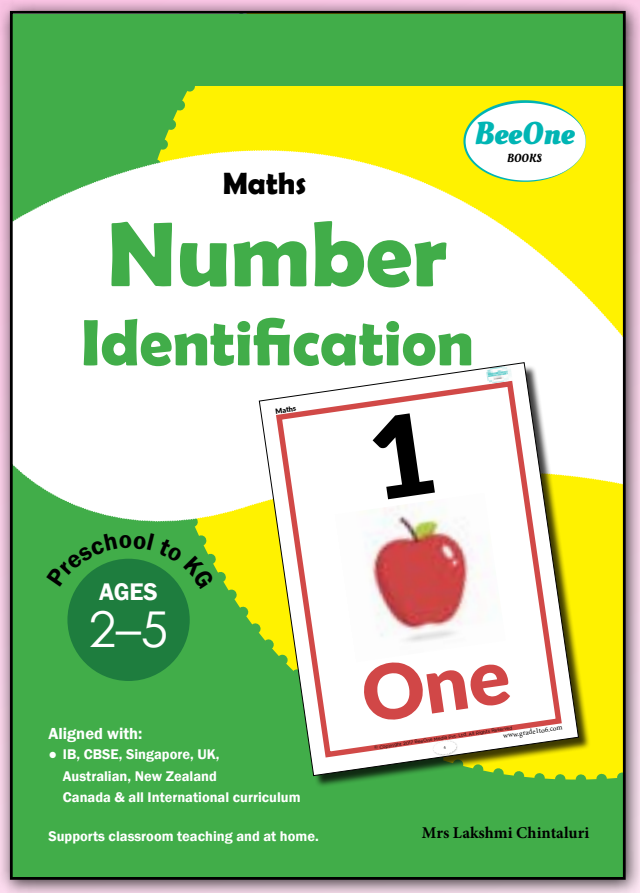
Pages: 14
Price: Rs 300 / $6



Number Flashcard: This number flashcards workbook is a valuable tool for early childhood education. It provides a visual and tactile way to learn numbers 1 to 20. By using these flashcards, children can practice number recognition, counting, and sequencing in a fun and interactive manner.

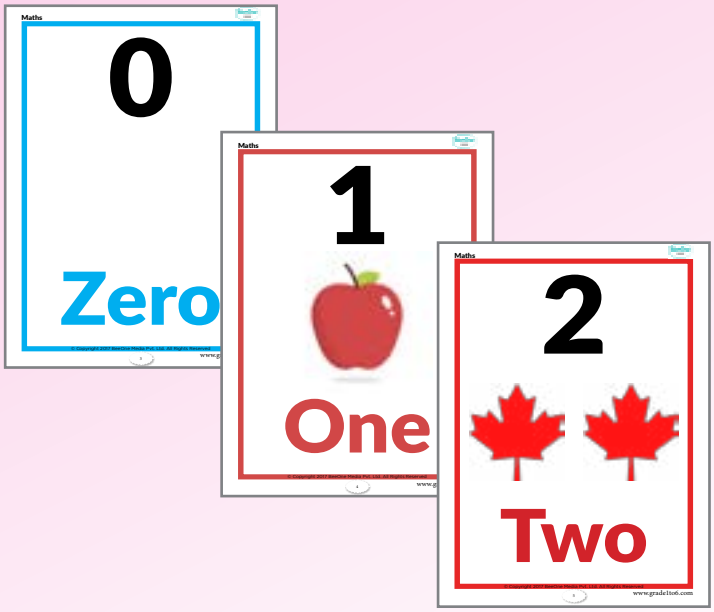
Pages: 20
Price: Rs 300 / $6

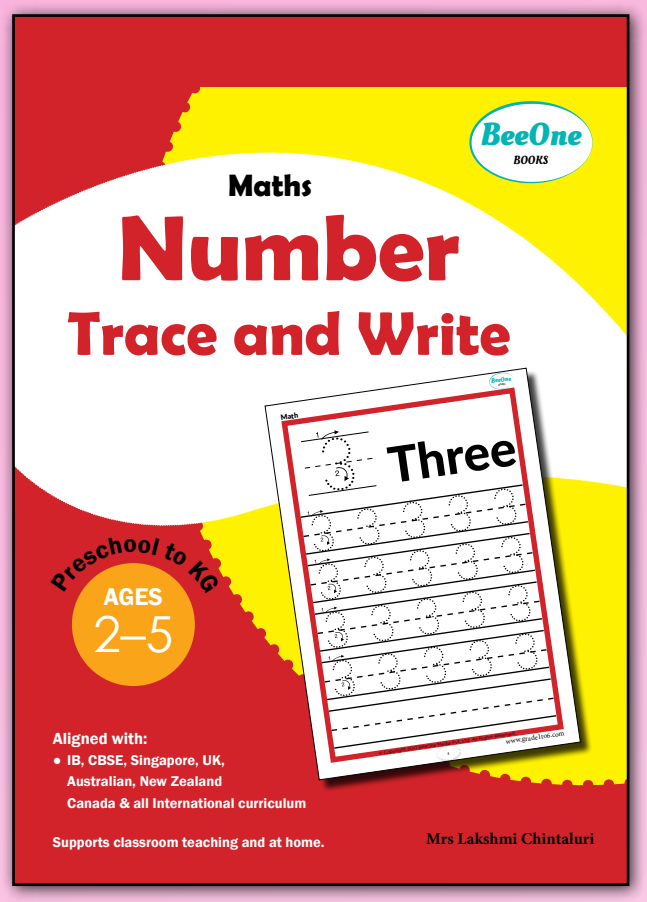




Number Identification: This workbook offers a comprehensive approach to number identification from 1 to 20. By combining written numbers with corresponding images and number names, it provides a multi-sensory learning experience.

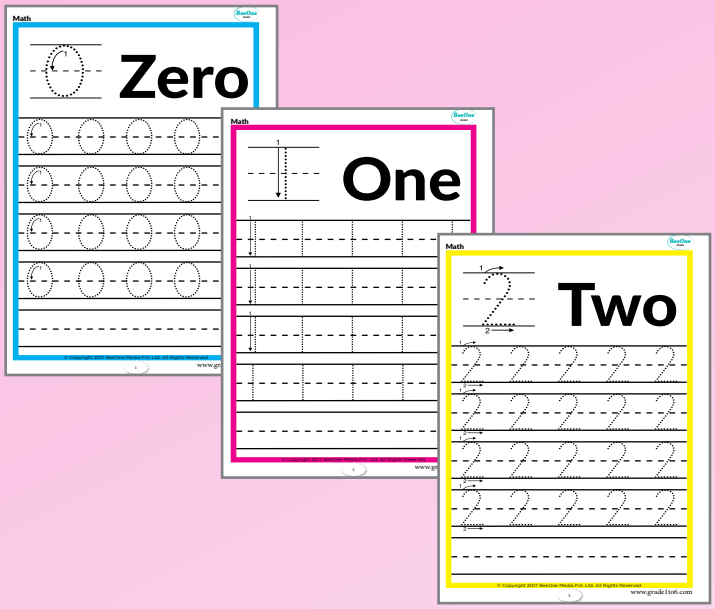
Pages: 25
Price: Rs 300 / $6

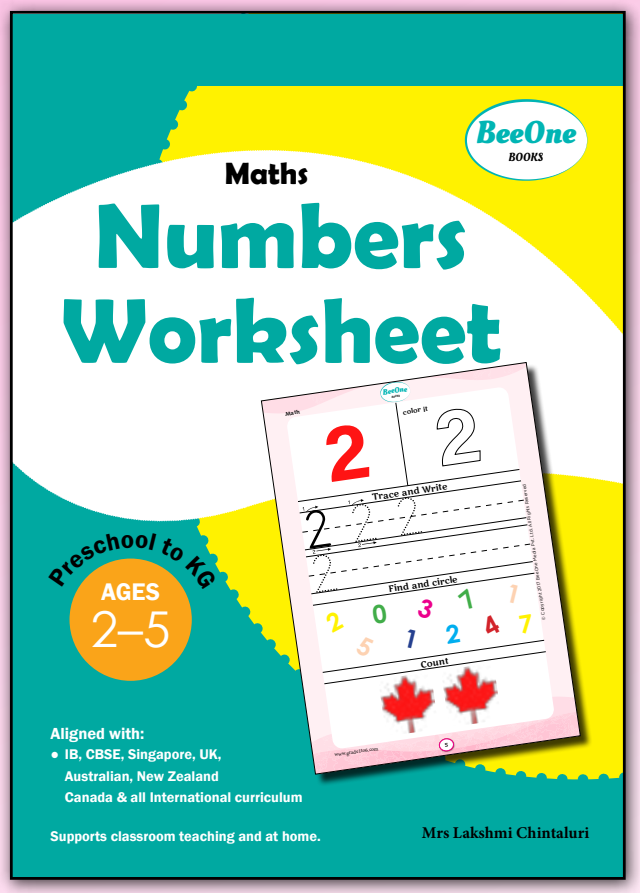




Number Trace And Write: This tracing numbers workbook is a fantastic tool for developing fine motor skills and number recognition in young children. By practicing tracing numbers from 0 to 9, children improve their hand-eye coordination and learn to write numbers correctly.

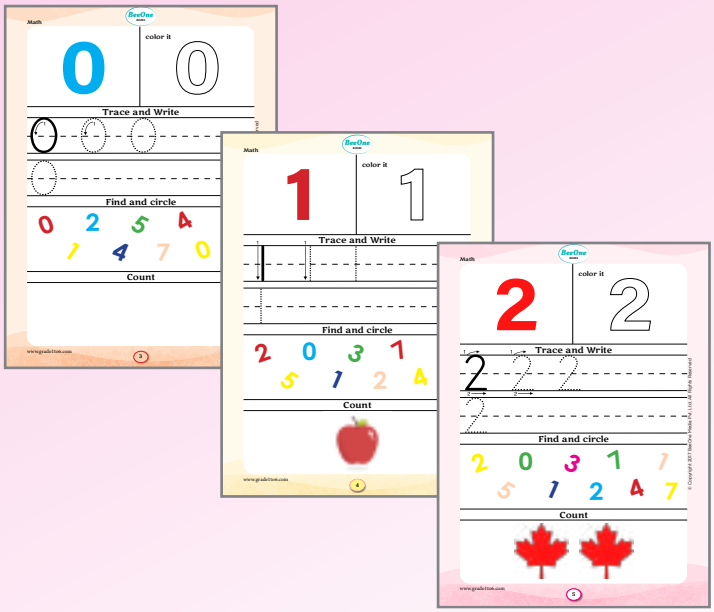
Pages: 14
Price: Rs 300 / $6

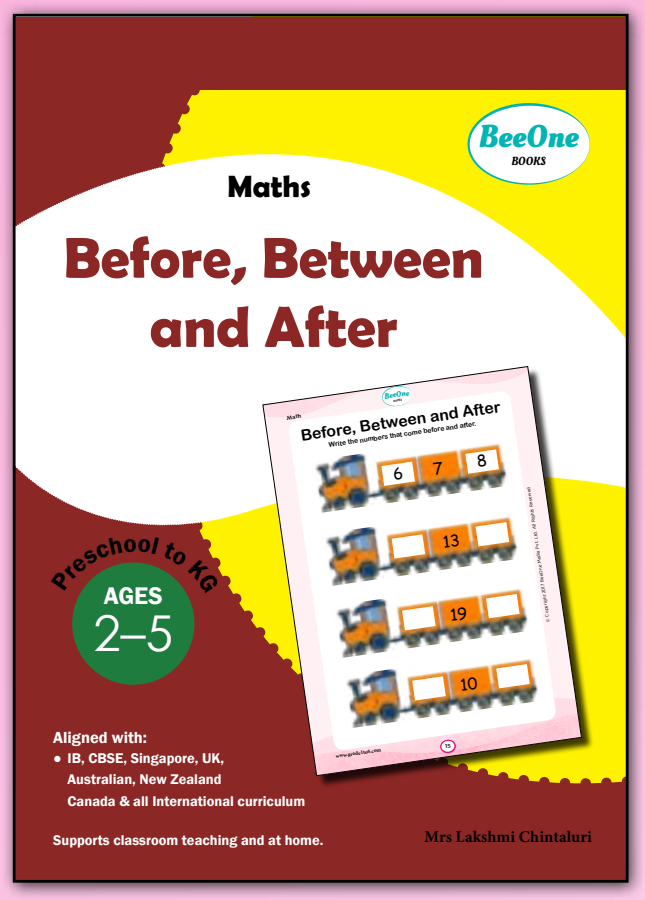




Number Worksheet: This comprehensive workbook offers a multi-faceted approach to number learning. It combines reading, coloring, tracing, finding, circling, and counting activities to engage children in a variety of ways.

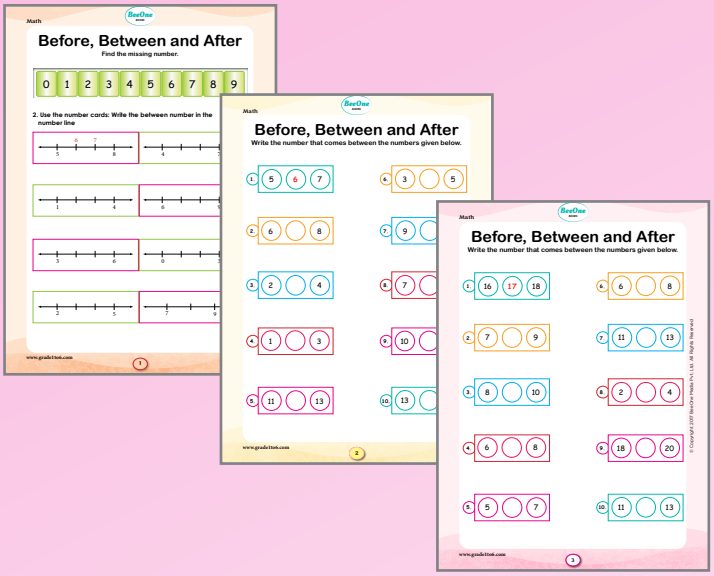
Pages: 25
Price: Rs 300 / $6

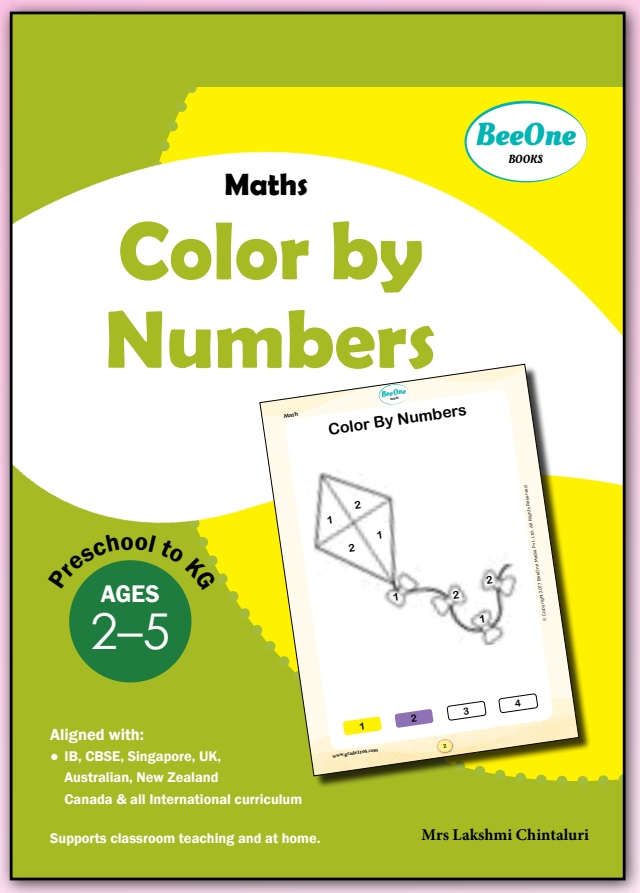




Before, Between and After: is a fun and engaging workbook designed to help preschool and kindergarten children master number sequencing and number patterns. With age-appropriate exercises and international curriculum alignment, it builds strong foundational math skills through visual learning and repetition.

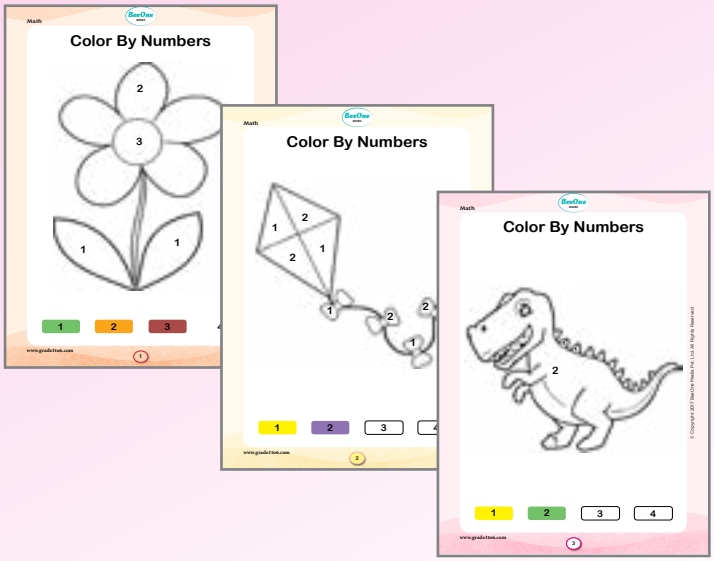
Pages: 22
Price: Rs 300 / $6





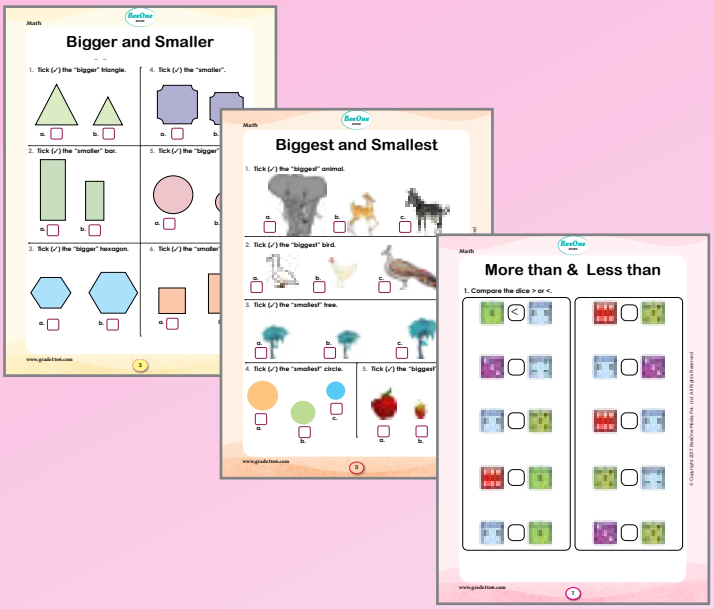
Color by Numbers : is a delightful workbook for preschoolers that combines number recognition with coloring fun, helping children strengthen early math skills through creative play. Aligned with international curricula, it's perfect for classroom and home use to support number learning in an engaging way.

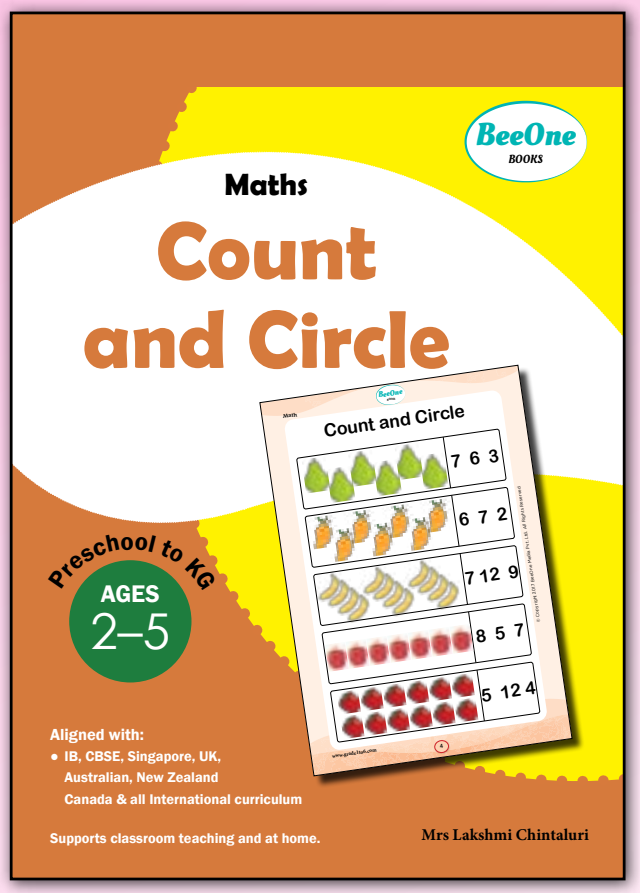
Pages: 22
Price: Rs 300 / $6



Comparing is an interactive workbook that helps young children understand size, quantity, and numbers through fun visuals and simple activities. Kids will learn concepts like big vs small, more vs less, and greater vs smaller in an easy and engaging way.

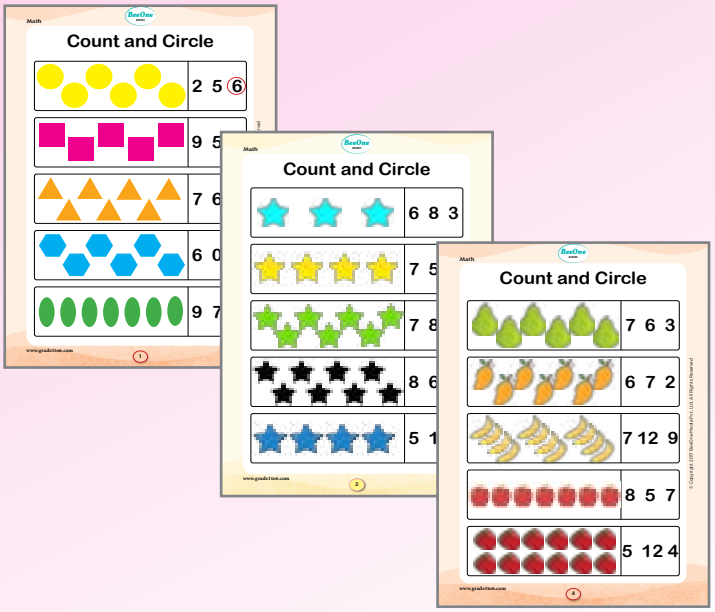
Pages: 23
Price: Rs 300 / $6

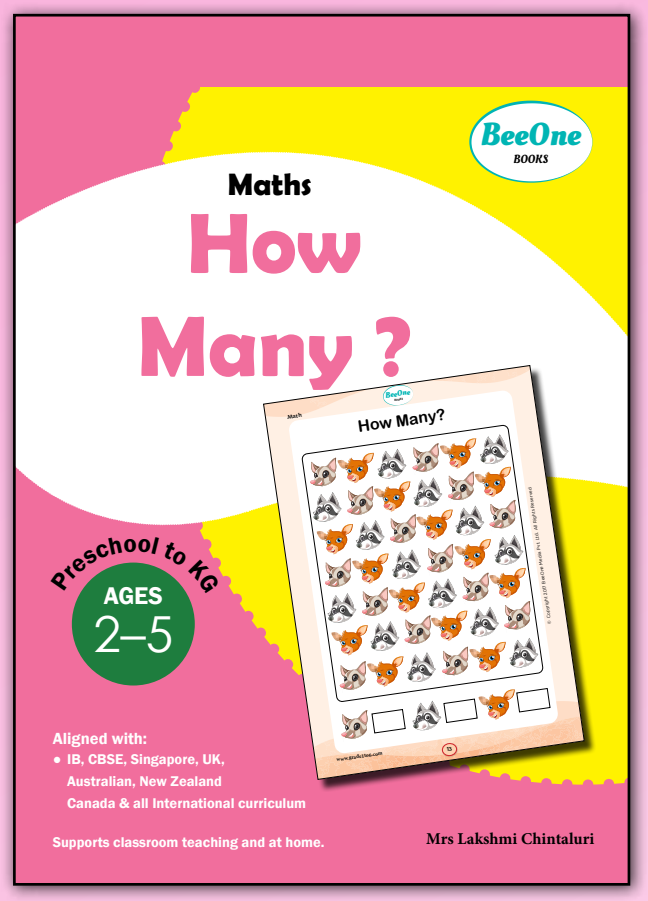




Count and Circle is a hands-on workbook that encourages children to count objects and identify the correct number in a fun, repetitive format. It's perfect for building early counting, number recognition, and observation skills in preschool and kindergarten learners.

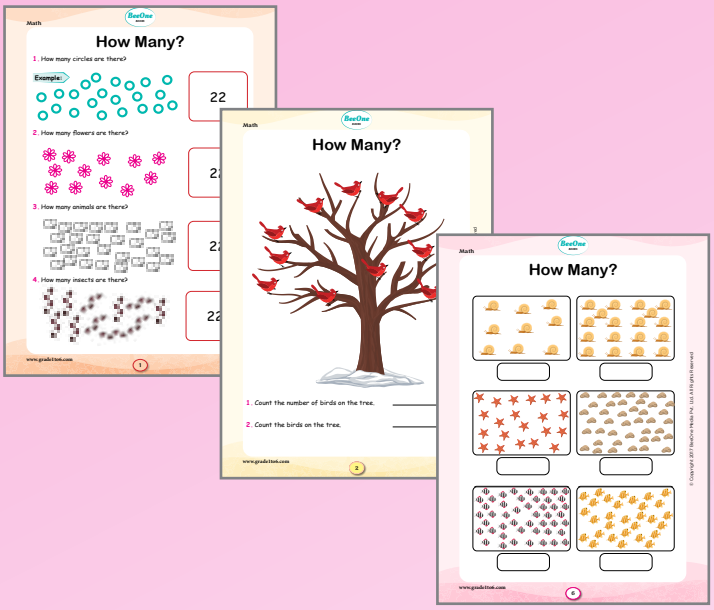
Pages: 22
Price: Rs 300 / $6

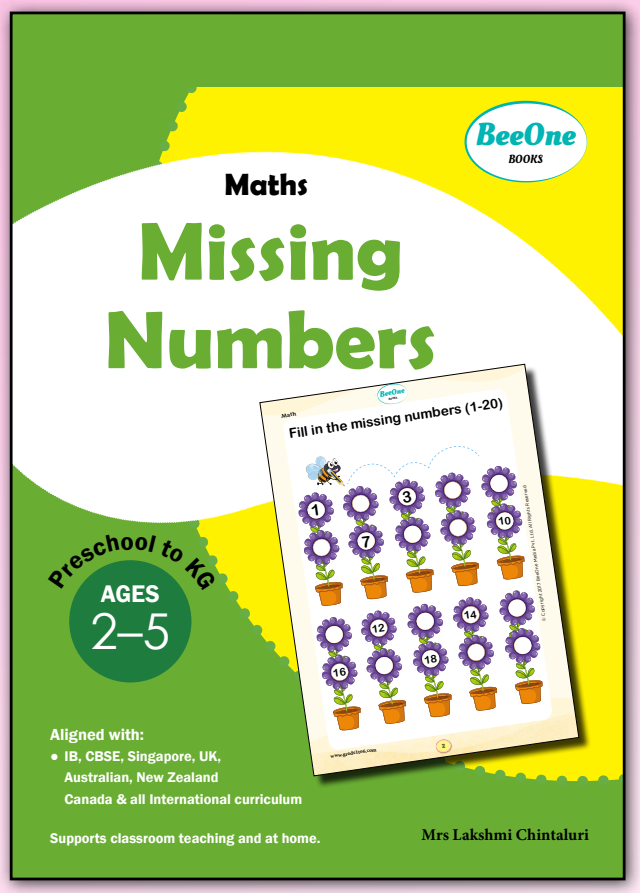




How Many? is a fun counting workbook that helps preschoolers practice number recognition by counting objects like animals, fruits, and shapes. Each activity strengthens observation and counting skills in a visually engaging way for young learners

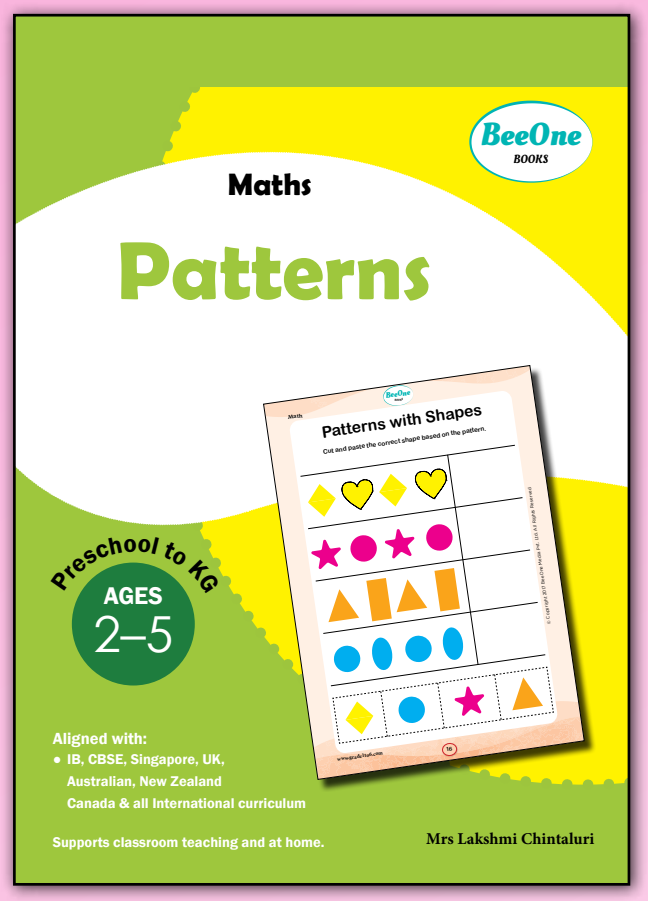
Pages: 24
Price: Rs 300 / $6





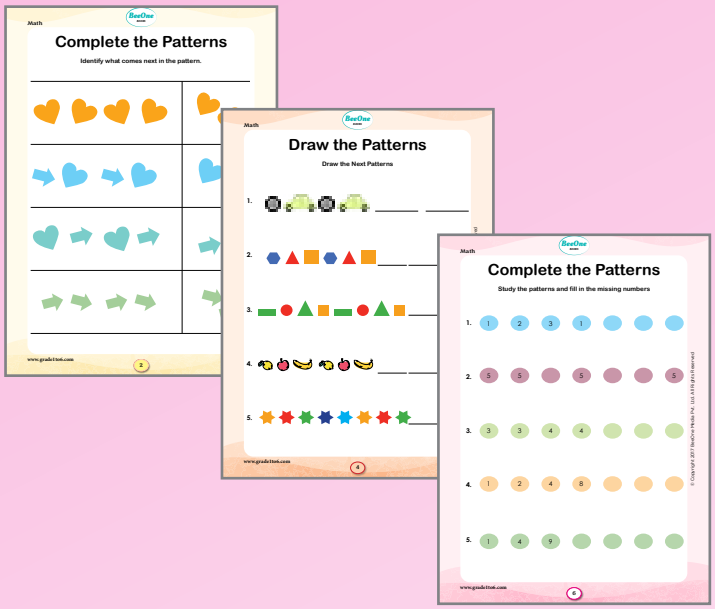
Missing Numbers is a number sequencing workbook that helps young learners identify and fill in skipped numbers between 1 and 20. Through repeated pattern exercises, children develop counting fluency, logical thinking, and number order recognition.

Pages: 22
Price: Rs 300 / $6



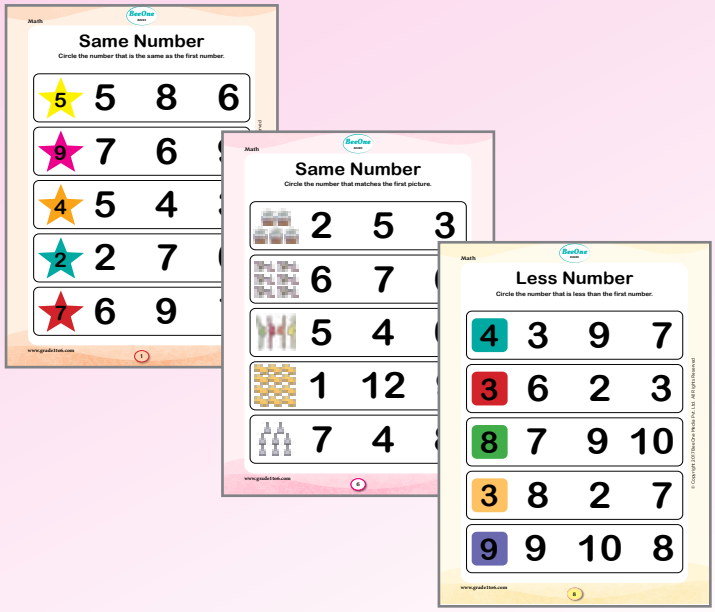
Patterns is an engaging workbook that helps young children recognize, complete, and create patterns using shapes, colors, and numbers. With cut-and-paste and coloring activities, it develops logical thinking and visual sequencing in a fun, hands-on way

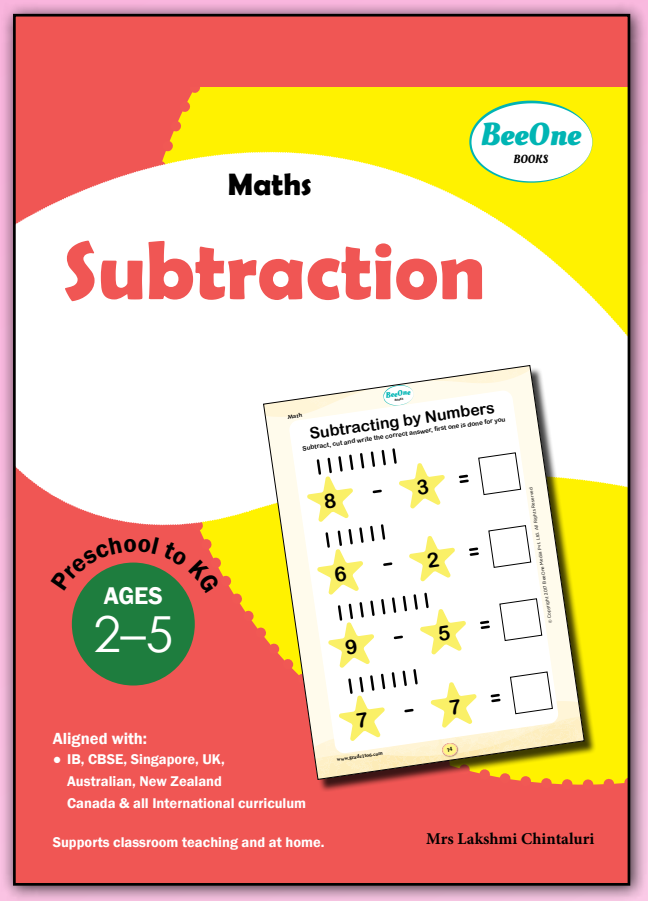
Pages: 20
Price: Rs 300 / $6



Same, Less, More is a number comparison workbook that helps children understand basic math concepts by identifying equal, smaller, or larger numbers. With clear visuals and engaging activities, it builds foundational number sense in a simple and enjoyable way.

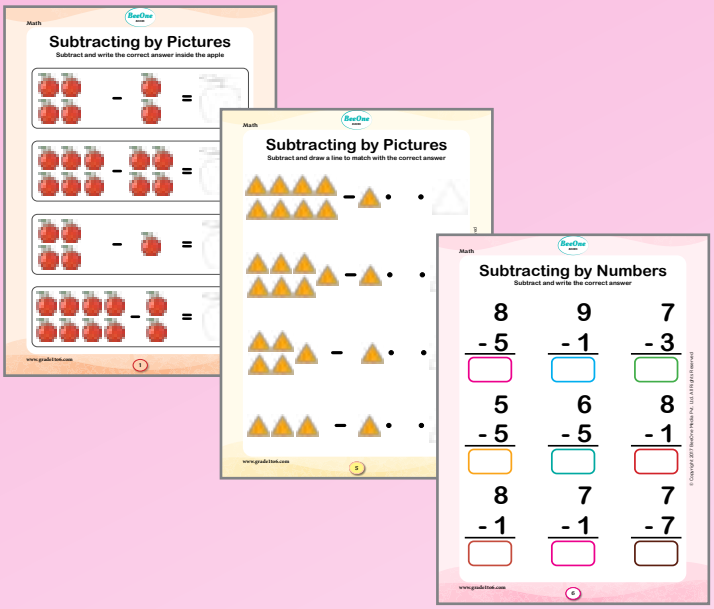
Pages: 22
Price: Rs 300 / $6

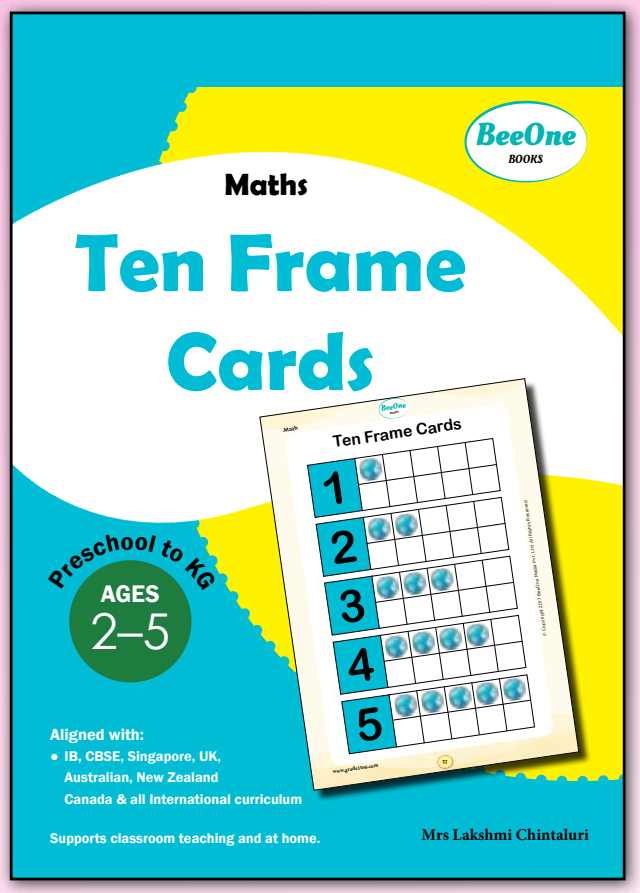




This **"Subtraction"** workbook is designed for preschool to kindergarten children (ages 2-5). It offers a step-by-step approach to mastering subtraction through various engaging activities and visual reinforcement, aligning with international curricula.

Pages: 26
Price: Rs 300 / $6





This **"Ten Frame Cards"** workbook is designed for children aged 2-5. It's part of the BeeOne Workbooks series, offering a visual approach to early math concepts using ten frames

Pages: 22
Price: Rs 300 / $6
