

Adding Three or Four Small Numbers

Example:

Make your own number bonds.

$7 + 3 + 5 = 15$

$6 + 3 + 6 = 15$

$9 + 1 + 5 = 15$

$8 + 4 + 3 = 15$

43

Write other ways to make the number 43 by adding three single/double digit numbers?

37

Write other ways to make the number 37 by adding three single/double digit numbers?

23

Write other ways to make the number 23 by adding three single/double digit numbers?

65

Write other ways to make the number 65 by adding three single/double digit numbers?

71

Write other ways to make the number 41 by adding three single/double digit numbers?

93

Write other ways to make the number 93 by adding three single/double digit numbers?

82

Write other ways to make the number 82 by adding three single/double digit numbers?
