

Ratio and Proportion

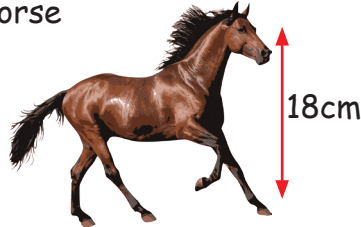

1. The height mentioned of the animals are actually smaller than in real life. Find out the real height of the animals.

Bear

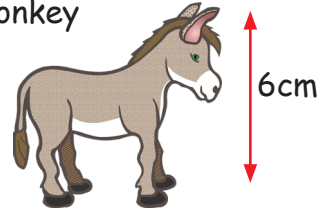

This is $\frac{1}{2}$ real height.
Real height is _____

Horse

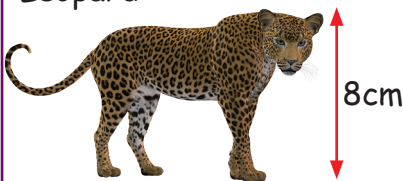

This is $\frac{1}{10}$ real height.
Real height is _____

Donkey

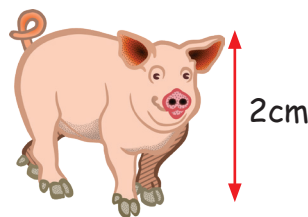

This is $\frac{1}{3}$ real height.
Real height is _____

Leopard

This is $\frac{1}{2}$ real height.
Real height is _____

Pig

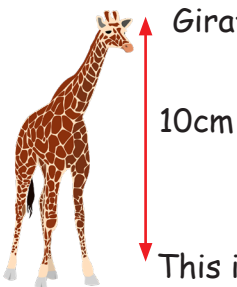

This is $\frac{1}{6}$ real height.
Real height is _____

Cow

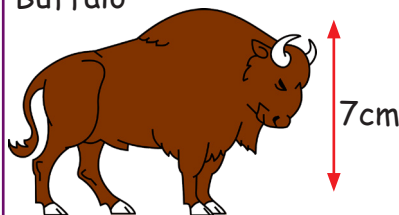

This is $\frac{1}{4}$ real height.
Real height is _____

Giraffe

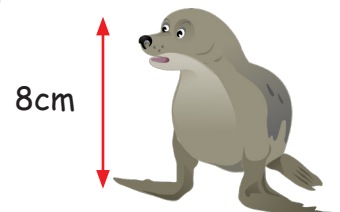

This is $\frac{1}{8}$ real height.
Real height is _____

Buffalo

This is real $\frac{1}{6}$ height.
Real height is _____

Seal

This is $\frac{1}{2}$ real height.
Real height is _____
