

Bar Graph: Business Popularity Chart

Mr. Garcia has drawn this bar graph to show the popularity data of his business.

Look carefully at Mr. Garcia's graph and answer these questions:

1. How many customers chose the sit-down restaurant? _____
2. 30 customers chose one type of service. What did they choose? _____
3. What did most of the customers choose? How many customers chose this service?
4. What was the least popular choice? How many customers made this choice?
5. If he has to just select only the top three service which one will he choose?

6. If he has to remove one service from what he is offering now which one will he remove? Why?
