

Area of Triangles:

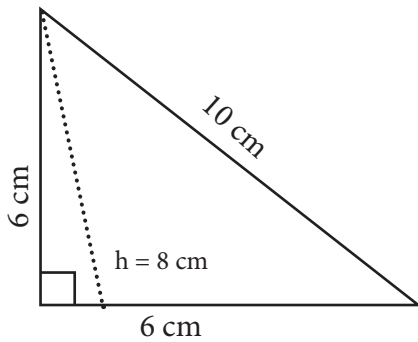

Find the **area** of these triangles.

1.

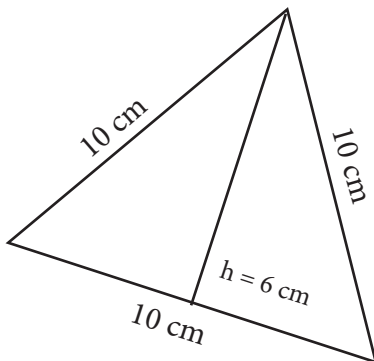

Area: $\frac{1}{2} \times 4 \times 6 = 12 \text{ sq cm.}$

2.

Area:

3.

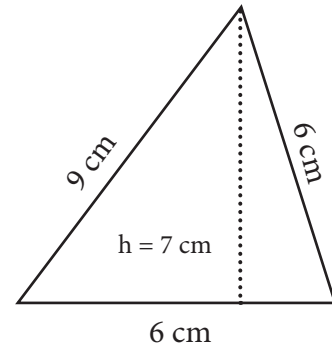

Area:

Formula: -

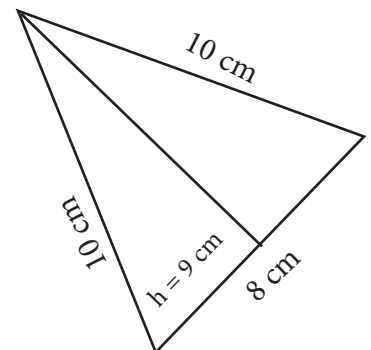

$$\text{area} = \frac{1}{2} \times \text{base} \times \text{height}$$

4.

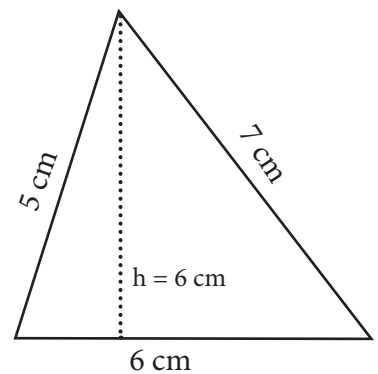

Area:

5.

Area:

6.

Area:
